

PSHE Policy

(Personal, Social & Health Education)

(including Relationships and Health Education and our position on Sex Education)

Date: May 2021 Review date: May 2022

Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

PSHE

At Cotsford Primary School, we teach Personal, Social and Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity.

The Jigsaw Programme offers us a comprehensive, carefully thought-through Scheme of Work which brings consistency and progression to our children's learning in this vital curriculum area. The overview of the programme can be seen on the school website.

This also supports the "Personal Development" and "Behaviour and Attitude" aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

Statutory Relationships and Health Education

"Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way."

"This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools."

Secretary of State Foreword DfE Guidance 2019 p.4-5

"Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons."

DfE Guidance p.8

Here, at Cotsford Primary School we value PSHE as one way to support children's development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

We include the statutory Relationships and Health Education within our whole-school PSHE Programme.

To ensure progression and a spiral curriculum, we use Jigsaw, the mindful approach to PSHE, as our chosen teaching and learning programme and tailor it to your children's needs. The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

This programme's complimentary update policy ensures we are always using the most up to date teaching materials and that our teachers are well-supported.

Our PSHE policy is informed by existing DfE guidance:

- Keeping Children Safe in Education (statutory guidance)
- Respectful School Communities: Self Review and Signposting Tool (a tool to support a whole school approach that promotes respect and discipline)
- Behaviour and Discipline in Schools (advice for schools, including advice for appropriate behaviour between pupils)
- Equality Act 2010 and schools
- SEND code of practice: 0 to 25 years (statutory guidance)
- Alternative Provision (statutory guidance)
- Mental Health and Behaviour in Schools (advice for schools)
- Preventing and Tackling Bullying (advice for schools, including advice on cyberbullying)
- Sexual violence and sexual harassment between children in schools (advice for schools)
- The Equality and Human Rights Commission Advice and Guidance (provides advice on avoiding discrimination in a variety of educational contexts)
- Promoting Fundamental British Values as part of SMSC in schools (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC)
- SMSC requirements for independent schools (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

What do we teach when and who teaches it?

Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2:	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1:	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2:	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At Cotsford Primary School time is allocated each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways:

Assemblies and collective worship, praise and reward system, Learning Charter, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Class teachers deliver the weekly lessons to their own classes.

Relationships Education

Relationships Education is the building blocks of healthy, respectful relationships, focusing on 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'Online relationships', and 'Being safe'. It gives children and young people the essential skills to build positive, enjoyable and non-exploitative relationships.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

Health Education

Health Education covers 'Mental wellbeing', 'Internet safety and harms', Physical health and fitness', Healthy eating', 'Drugs, alcohol and tobacco', 'Health and prevention' and 'Basic First Aid'.

Teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit).

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured every lesson through the Calm me time, social skills are grown every lesson through the Connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Again, the mapping document transparently shows how the Jigsaw whole-school approach spirals the learning and meets all statutory requirements and more.

Sex Education

Relationships and Sex Education (RSE) is lifelong learning about physical, sexual, moral and emotional development. It is about the understanding of the importance of stable and loving relationships, respect, love and care, for family life. It involves acquiring information, developing skills and forming positive beliefs, values and attitudes.

There should be a clear progression of what is taught from Relationship Education in primary school through to RSE in secondary school.

Sex education 'should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science – how a baby is conceived and born'. Schools are to determine the content of sex education at primary school with the DfE Guidance 2019 (p.23) recommending that all primary schools 'have a sex education programme tailored to the age and the physical and emotional maturity of the pupils.

However, 'Sex Education is not compulsory in primary schools'. (p. 23)

At Cotsford Primary School, puberty is taught as a statutory requirement of Health Education and covered by our Jigsaw PSHE Programme in the 'Changing Me' Puzzle (unit), and we conclude from the DFE Guidance that sex education refers to Human Reproduction.

The Governing Body has agreed that sex education in terms of human reproduction will not be explicitly taught and therefore, the parent right to withdraw their child is not applicable. We are of course happy to discuss the content of the curriculum and invite you to contact the Head Teacher.

The School fulfils the requirements of the National Curriculum by teaching the elements of study in Science, including the development of animal and plant life and knowledge of the human body.

Any Relationship Education/RSE lesson may consider questions or issues that some pupils will find sensitive. Before embarking on these lessons a group/classroom agreement, formally known as ground rules are established which prohibit inappropriate personal information being requested or disclosed by those taking part in the lesson.

When pupils ask questions, we aim to answer them honestly at an age appropriate level and within the group/classroom agreement established at the start of the sessions. If it is felt that answering a specific question would involve information at a level inappropriate to the age and development of the rest of the pupils, the question will either be dealt with individually at another time, or if children's concerns and queries go beyond National Curriculum requirements and the content agreed by the school policy, they will be referred to parents. Children's whose questions go unanswered may turn to inappropriate sources of information.

Monitoring and Review

The Curriculum Committee of the governing body monitors this policy on an annual basis. This committee reports its findings and recommendations to the full governing body, as necessary, if the policy needs modification. The Curriculum Committee gives serious consideration to any comments from parents about the PSHE (RSHE) programme, and makes a record of all such comments. Governors scrutinise and ratify teaching materials to check they are in accordance with the school's ethos.

Equality

We intend our policy to be sensitive to the needs of different ethnic, cultural and religious groups. We encourage parents /carers to discuss any concerns with the Head teacher.

This policy will inform the school's Equalities Plan.

The DfE Guidance 2019 (p. 15) states, "Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect.

Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics...

At the point at which schools consider it appropriate to teach their pupils about LGBT (Lesbian, Gay, Bisexual, Transgender), they should ensure this content is fully integrated into their programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. Schools are free to determine how they do this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum".

For further explanation as to how we approach LGBT relationships in the PSHE (RSHE) Programme please see: 'Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?'

We aim to deal sensitively and honestly with regard of sexual orientation and gender identity, answer appropriate questions and offer support. Pupils, whatever their developing gender identity and sexuality need to feel that relationship education is relevant to them.

Pupils with Special Needs

We will ensure that all pupils receive relationships education and relationships and sex education, and we will offer provision appropriate to the needs of all our pupils, taking specialist advice where necessary.

Working with parents/carers and the wider community

Here at Cotsford Primary School we believe the role of parents in the development of their children's understanding about relationships is vital. Parents/carers are the first educators of their children. Therefore, we will ensure that we work closely with parents/carers to ensure they are aware what is taught and when. This policy and information on what will be taught and when will be freely available on our schools' website for parent/carers to access.

Jigsaw PSHE supplementary documents needed to explain this policy:

- Jigsaw 3-11 and statutory Relationships and Health Education (mapping document)
- Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?
- Jigsaw Knowledge Progression by Puzzle documents and Cotsford Primary Knowledge Progression document for the 'Changing Me' unit

Relationships Education in Primary schools (Appendix) – DfE Guidance 2019

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults. The references R3/H5 etc can be cross-referenced on the Jigsaw mapping documents and Puzzle Maps to show which lessons throughout Jigsaw contribute to which statutory outcomes. All statutory outcomes are covered in the Jigsaw 3-11 Programme.

The guidance states that, by the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Families and people who care for me	 R1 that families are important for children growing up because they can give love, security and stability. R2 the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. R3 that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. R4 that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. R5 that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious). R6 how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed 	All of these aspects are covered in lessons within the Puzzles Relationships Changing Me Celebrating Difference Being Me in My World

Carling	D7 here in a start friendsking out in a sking of a three starts and the start	
Caring friendships	 R7 how important friendships are in making us feel happy and secure, and how people choose and make friends 	
	 R8 the characteristics of friendships, including mutual respect, truthfulness, 	
	trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and	
	support with problems and difficulties	
	• R9 that healthy friendships are positive and welcoming towards others and do not make	
	others feel lonely or excluded	
	• R10 that most friendships have ups and downs, and that these can often be worked	
	through so that the friendship is repaired or even strengthened, and that resorting to violence is never right	
	• R11 how to recognise who to trust and who not to trust, how to judge when a friendship is	
	making them feel unhappy or uncomfortable, managing conflict, how to manage these	
	situations and how to seek help and advice from others, if needed	
Respectful	• R12 the importance of respecting others, even when they are very different from them (for	
relationships	example, physically, in character, personality or backgrounds), or make different choices or	
	have different preferences or beliefs	
	 R13 practical steps they can take in a range of different contexts to improve or support respectful relationships 	
	R14 the conventions of courtesy and manners	
	R15 the importance of self-respect and how this links to their own happiness	
	• R16 that in school and in wider society they can expect to be treated with respect by	
	others, and that in turn they should show due respect to others, including those in positions of authority	
	• R17 about different types of bullying (including cyberbullying), the impact of bullying,	
	responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help	
	R18 what a stereotype is, and how stereotypes can be unfair, negative or destructive	
	• R19 the importance of permission-seeking and giving in relationships with friends, peers	
	and adults	
Online relationships	 R20 that people sometimes behave differently online, including by pretending to be someone they are not. 	All of these aspects are covered in lessons within the Puzzles
	• R21 that the same principles apply to online relationships as to face-to-face relationships,	
	including the importance of respect for others online including when we are anonymous.	Relationships

	 R22 the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. R23 how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. R24 how information and data is shared and used online. 	 Changing Me Celebrating Difference
Being safe	 R25what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). R26 about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. R27 that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact. R28 how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. R29 how to recognise and report feelings of being unsafe or feeling bad about any adult. R30 how to ask for advice or help for themselves or others, and to keep trying until they are heard, R31 how to report concerns or abuse, and the vocabulary and confidence needed to do so. R32 where to get advice e.g. family, school and/or other sources. 	 All of these aspects are covered in lessons within the Puzzles Relationships Changing Me Celebrating Difference

Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Mental wellbeing	 H1 that mental wellbeing is a normal part of daily life, in the same way as physical health. H2 that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. H3 how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings. H4 how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. H5 the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness. H6 simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. H7 isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. H8 that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being. H9 where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online). 	All of these aspects are covered in lessons within the Puzzles Healthy Me Relationships Changing Me Celebrating Difference

Internet safety and harms	 H10 it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough. H11 that for most people the internet is an integral part of life and has many benefits. H12 about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. H13 how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private. H14 why social media, some computer games and online gaming, for example, are age restricted. H15 that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. H16 how to be a discerning consumer of information online including 	All of these aspects are covered in lessons within the Puzzles Relationships Healthy Me
	 understanding that information, including that from search engines, is ranked, selected and targeted. H17 where and how to report concerns and get support with issues online. 	
Physical health and fitness	 H18 the characteristics and mental and physical benefits of an active lifestyle. H19 the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. H20 the risks associated with an inactive lifestyle (including obesity). H21 how and when to seek support including which adults to speak to in school if they are worried about their health. 	All of these aspects are covered in lessons within the PuzzlesHealthy Me
Healthy eating	• H22 what constitutes a healthy diet (including understanding calories and other nutritional content).	All of these aspects are covered in lessons within the Puzzles

 H23 the principles of planning and preparing a range of healthy meals. H24 the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health). Drugs, alcohol and H25 the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking H26 how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. H27 about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. H28 the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. H29 about dental health and the benefits of good oral hygiene and dental 	
behaviours (e.g. the impact of alcohol on diet or health).Drugs, alcohol and tobaccoH25 the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-takingHealth and preventionH26 how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.All of these aspects are of the PuzzlesH27 about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.H28 the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn.Health and the Puzzles
