Maths		Tables	MFL
<p>The children will be covering several different topics in Maths this half term including finishing our multiplication and division unit from last half term where we will look at sharing and grouping. Then the children will learn about length and height where they will look at centimetres and metres and make comparisons. Then they will look at Mass, capacity and temperature focusing on recognising quantities and comparing mass.</p>		<p>x3, x2, x5 and x10 tables</p>	<p>In my town This half term, the children will learn to recognise, recall, and remember up to 7 places from the town in Spanish and attempt to build a sentence using the structure 'hay' (there is).</p>
Science		PSHE	
<p>Microhabitats This half term the children will look at identifying and naming plant and animals. They will take a closer look at minibeasts and the fact that they live in microhabitats. They will describe different microhabitats and their conditions focusing on how the habitat provides for the basic needs of animals and plants. They will begin to explore professions linked to plants focusing on the role of a botanist.</p>		<p>Healthy Me! The children will learn about what their body needs to grow healthy, including healthy eating and exercise. They will focus on how to look after their mental health including the importance relaxation and taking time to reflect.</p>	
Computing	Geography	RE	
<p>Data and information During this unit of work the children will use j2e pictogram tool and they will begin to understand what the term data means and how data can be collected in the form of a tally chart and a pictogram. They will learn the term 'attribute' and use this to help them organise data.</p>	<p>Wherever next? Throughout this unit, the children will discuss whether they would prefer to live somewhere hot or somewhere cold. They will focus on the location of the north pole, south pole and the equator on a world map. They will make comparisons between Nigeria and the UK and the children. will complete several discussion tasks linked to their own personal experiences. They will be able to talk about cold and hot climates and how the land and weather differs.</p>	<p>Easter Children will identify some features and objects found in churches at Easter eg cross, Easter Garden and they will recognise the importance of colour in churches -gold/white/purple. They will identify some Easter practices in churches eg Hallelujah, Easter hymns, giving out eggs, bread, wine and recall the story of Good Friday and Easter Day as well as recall some other events in the Easter story eg entry into Jerusalem, Last Supper.</p>	
Music	Design and Technology	PE	
<p>Children will use their voices expressively and creatively by singing songs and speaking chants and rhymes They will play tuned and untuned instruments musically. Children will listen with concentration and understanding to a range of high-quality live and recorded music.</p>	<p>Woven wonders - Craft & Design / Textiles - In this unit the children will look at textile artwork, learn about the techniques used by Cecilia Vicuna and then use knotting, plaiting, weaving, and threading to create their own artwork. They will also explore methods of joining fabrics together including using a running stitch. Artist: Cecilia Vicuña, Judith Scott</p>	<p>Kick rounders -children will have fun whilst improving basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities.</p>	<p>Gymnastics - children will learn how to make different shapes using their bodies and develop their ability to balance.</p>
